Conforti Exclusive Safes to take part in “Abitare il Tempo”

From the 24th to the 27th September the luxury brand by Conforti will take part to “Abitare il Tempo”, a fair dedicated to interior design and decor which will take place at the PalaExpo of Veronafiere.

The exhibition, dedicated to interior design, represents the perfect occasion to introduce Conforti, both as producer of security and as an actual artistic workshop. A marvelous opportunity to narrate the history of this product, which is the result of a successful experimentation between elements of security and interior design.

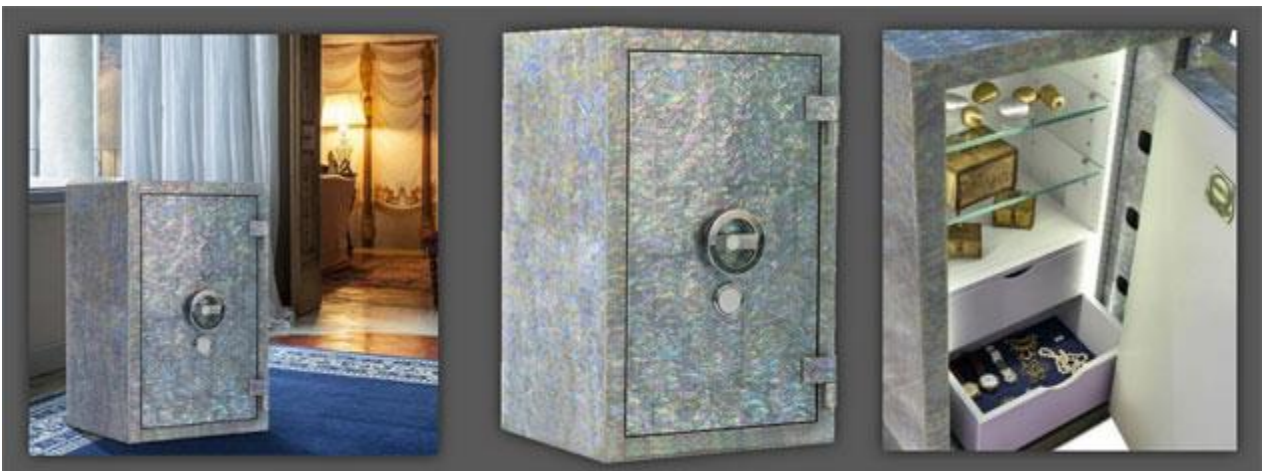

These safes, created to be displayed in living rooms, offices and jewelries, will accompany international professionals through the world of Conforti: a history of passion and artisan work with more than a hundred years long history. The tale of an artisan project that, since its very first model of safe Conforti, has succeeded in creating safes of high design, passing through a process of constant re-interpretation and innovation.

Designers, architects and contract operators will find at the PalaExpo of Veronafiere – Stand B18-19 – the best choice of material and finishes to create and customize their own personal models of Conforti Exclusive Safes. Thanks to the collaboration with expert artisans, it has been possible to develop several different projects of Exclusive Safes, proposing luxury materials such as briar-root, mother-of-pearl, marble and leather.

But the choice of materials does not stop here. In fact, Conforti accepts all the challenges it receives so as to be able to meet the requests of the market by enlarging the aesthetic and functional range of material it uses.

Aesthetic preciousness is a defining characteristic of Conforti Exclusive Safes' internal decor. Their internal shelves in glass or varnished, its led lights and its briar-root drawers covered by a soft fabric welcome and hide jewels and other precious objects. Moreover, Conforti has dedicated to all those passionate with watches the possibility to insert mechanical rotors inside the safes, so as to recharge and expose their fantastic objects.

Conforti has established its presence in the security sector more than a hundred years ago, and is recognized as a luxury brand able to guarantee the maximum flexibility and productive personalization to all its interlocutors (architects, designers, project managers and suppliers). All this to offer an Italian artisan product of excellent quality.
