

PRESS RELEASE

archiproducts®

Starting from today the search engine ARCHIPRODUCTS for architecture and design presents s Conforti's luxury brand products, the unique EXCLUSIVE SAFES.

The precious models made of briar, leather, mother-of-pearl Superlativa® and marble are supported by particular data sheets that introduce the designer into the new refined world of top class products.

The data sheets show some possible solutions, but the main feature of EXCLUSIVE SAFES lies in high personalization: the client may choose among an extraordinary wide range of materials for the outside and inside covering of the safe. Moreover, several sophisticated locking systems and interior furnishings respond to the most demanding requests.

Here's the true luxury, the true Made in Italy.
