**Nhow Milano** -(1° floor - gallery)  
Via Tortona 35 – Milano (Italy)

### **WE PROTECT THE MOST PRECIOUS THINGS IN THE WORLD**

Conforti's secular experience renews itself through creativity.

The line Exclusive Safes combines security and innovation thanks to its meticulous design, to the attention it pays to each client and to the innovating skills of artisans specialized in using Made in Italy materials.

This combination of elements gives birth to unique safes, whose functionality is re-interpreted in the light of the aesthetic pleasure characterizing the Italian style: woven leather coverings embellished by nineteenth century-looking handles, malachite green with details in modeled brass and interiors in maple wood, mother of pearl or streaked marble. The safe thus becomes an element of decor, a precious chest that no longer hides its function but proposes security features combined with a new concept of beauty.

Each piece is unique and has been conceived to satisfy the requests of all those clients who do not want to renounce aesthetic pleasure while keeping their belongings safe.
